- Private residential villas, buildings and palaces.

Advanced working sectors

1. water treatment units
2. Chemicals
3. pumps
4. General contracting works
5. swimming pools

1. water treatment units

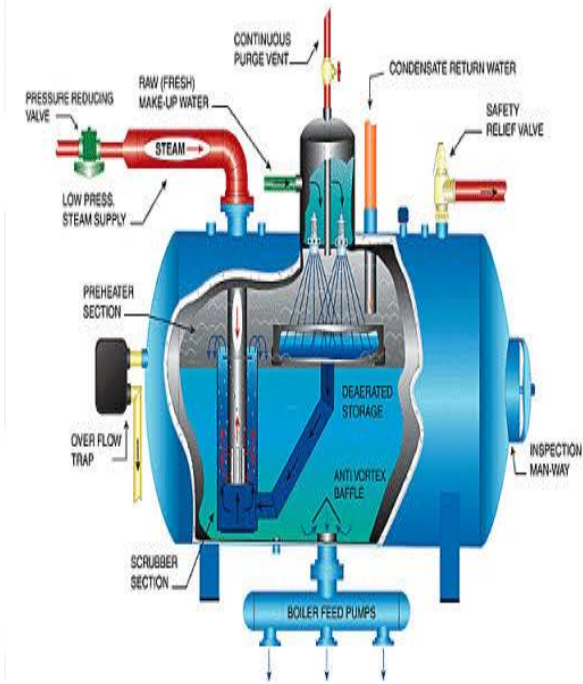

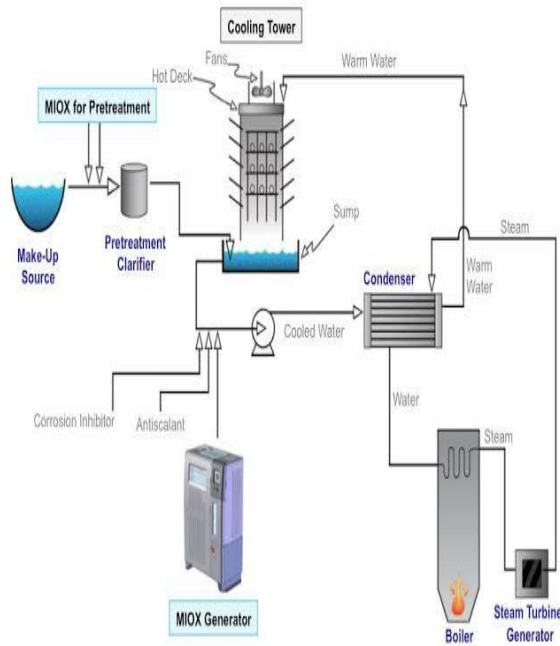

- Water softeners.
- Water deionizers.
- Automatic pressure filters (Sand filters, Activated carbon filters)
- Reverse osmosis systems for saline, brackish, and tap water.
- Industrial wastewater treatment units.
- Sewage treatment units (MBBR – MBR – SBR).
- Particle filter removal (cartridges)
- Water disinfection systems (Chlorination systems, Ozone systems, UV systems).
- Online dosing systems.
- Online control systems (pH, Chlorine, Conductivity)
- Special units for boats and yachts.
- Spare parts for all water treatment units.

2. Chemicals

- Water treatment chemicals for boilers, chillers, and cooling towers.
- Chemical cleaning, neutralizing and passivity for all types of piping systems, chilled systems, heat exchangers, and boilers
- Water treatment chemicals for domestic water treatment (red water problem).
- Wastewater treatment chemicals.
- All chemicals and raw materials related to water activity and treatment.
- Chemicals for swimming pools

Process Train for Cooling Water Treatment

3. Pumps

ADVANCED is specializing in supplying all kinds of pumps and its accessories, we are always pleased to receive your requests and suggestions.

**FREE CONSULTATION
INSTALLATION
TRUSTED GUARANTEE
AFTER-SALE SERVICES**

4. General contracting works

Firefighting works

- 1- Supply and installation works for firefighting systems.
 - 2- Works related to pump rooms and tanks.
 - 3- Complete internal alarm work.
 - 4- All spare parts for firefighting (pipes – valves – pumps – fire booth).
- * Works related to central air conditioning and cooling towers, supply, installation and maintenance.
